

Movable Acoustic Wall Panels

Acoustics India offers unique custom made Acoustic Movable Wall Partitions which facilitates in managing your space to its maximum capacity. Our Acoustic Movable wall partition system constitutes of panels suspended individually from the rail fixed to the top of the roof. The Acoustic Movable wall partition has retractable top and bottom seals which interlocks each panel to its position. If required, hinged pass doors shall be provided through the Acoustic Movable Wall Partition where access is required.

Acoustical Performance

Acoustic Performance of our movable wall partition will be in the range of R_w 37 to 53 dB.
