

Wedge Shaped Panels

Acoustics India offers wedge-shaped absorbing panels used in places requiring maximum sound absorption. Our wedge-shaped absorbing panels are manufactured from lightweight urethane foam and are used in domestic as well as industrial applications.

Technical Details

- Material : Poly Urethane Foam
- Size : 600 x 600 mm

Acoustical Performance

Absorption Coefficient Value					
125 Hz	250Hz	500Hz	1000Hz	2000Hz	4000Hz
0.30	0.86	1.26	1.16	1.08	1.10

Salient Features

- Light weight
- Flexible
- Excellent absorption over a broad frequency range
- Easy to install

Wedge Shaped Panels

Applications

- Studios
- Home Listening Rooms
- Recording Rooms
- Telecom Industry
- Automotive Industry
- Academic & Research Institutes
- Other Industrial Applications
